

LIFESIZE AND MICROSOFT

Qualified Integration for Productive Collaboration

First video solution vendor to qualify for the Office Communications Server 2007 R2 platform. Now fully interoperable with Microsoft Lync and pursuing official Lync qualification.

Seamless video calling from the desktop to the meeting room for rich collaboration and genuine interactions

Enhance your Microsoft® UC experience and maximize the value of your investment in Lync/OCS by choosing LifeSize video conferencing systems.

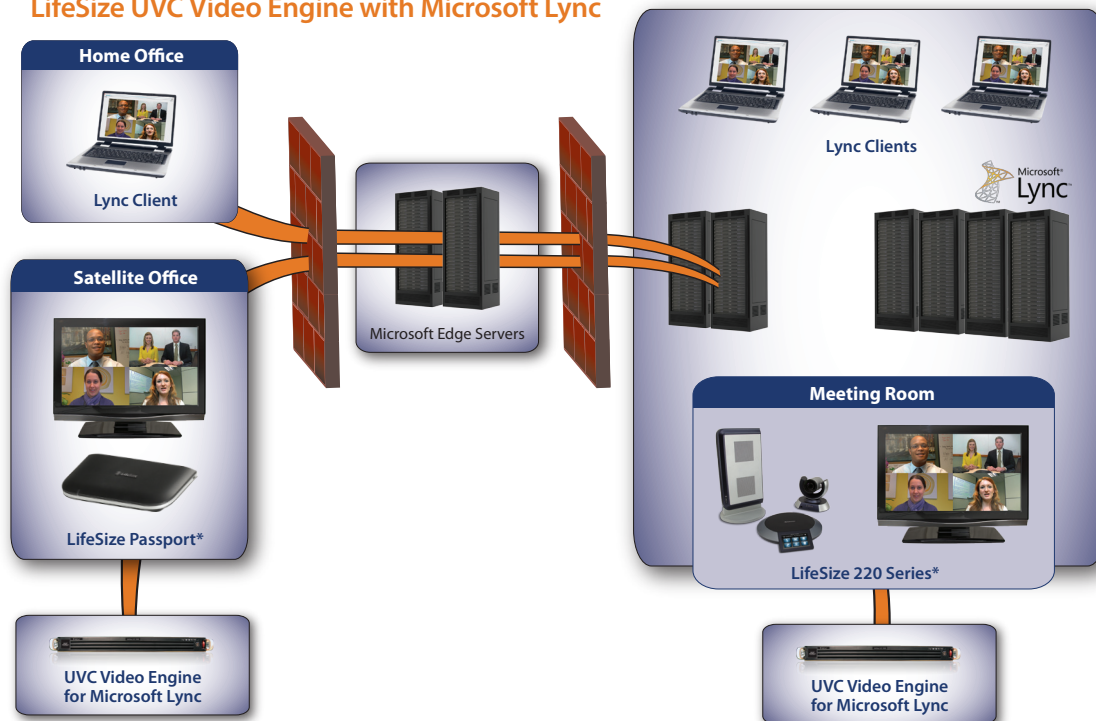

The LifeSize/Microsoft combination provides:

- An end-to-end solution from the boardroom to the desktop
- Up to 4-way continuous-presence HD video calls
- Enhanced productivity and collaboration
- Streamlined implementation
- Cost-effective scalability
- Ability for mobile and remote employees to stay connected

With LifeSize's integration and interoperability with Microsoft UC solutions, you can connect over video between LifeSize systems and desktops, all within the Microsoft UC environment and workflow—maximizing your Microsoft UC investment. Organizations of all sizes will be able to scale video collaboration capabilities cost-effectively to meet communication and productivity objectives. LifeSize's interoperability with Microsoft platforms also means that business users can enjoy a variety of communications services, including email, video, chat and phone—all from one single user interface.

LifeSize UVC Video Engine with Microsoft Lync

*LifeSize UVC Video Engine for Microsoft Lync works together with LifeSize 220s and LifeSize Passport to enable HD video collaboration with any Lync-enabled computers. It's the HD-quality meeting-room experience you expect from LifeSize, now available with Microsoft Lync. LifeSize is pursuing official Lync qualification of LifeSize 220s and LifeSize Passport.

LifeSize and Microsoft–Qualified Integration for Productive Collaboration

The entire LifeSize 220™ Series (including LifeSize® Room 220™, LifeSize® Team 220™ and LifeSize® Express 220™) and LifeSize® Passport™ are interoperable with Microsoft Lync. LifeSize is pursuing official Lync qualification.

Qualification means comprehensive support for Microsoft Lync and Office Communications Server, including support for:

- Authentication and encryption (TLS/SRTP) for secure, reliable communications
- Firewall/NAT traversal via Microsoft® Edge Services to ensure issue-free calling across organizations
- Auto-configuration to Lync/OCS to simplify deployment
- Unified presence status with the ability to place and receive calls from one Lync/OCS account among multiple devices (PC or a LifeSize system)
- Addition of LifeSize systems to contact lists in the Microsoft Lync/Office Communicator view
- Easy placement of calls from LifeSize-qualified video systems to third-party systems within the Lync/OCS environment, using commonly supported video and audio codecs

Interoperability and Qualification Detail

The entire LifeSize 220™ Series (including LifeSize® Room 220™, LifeSize® Team 220™ and LifeSize® Express 220™) and LifeSize® Passport™ have received official Microsoft qualification on Office Communications Server 2007. LifeSize is the first video solution vendor to qualify its full suite for the OCS R2 platform.

Logitech HD Webcams and Headsets

- **BH320 USB Stereo Earbuds**
Perfect for those who prefer a discreet and minimalistic wearing experience during audio and video calls
- **B525 HD Webcam**
