

▶ Polycom® CX100 Speakerphone

For Microsoft® Office Communicator 2007

High quality, hands-free calls from your computer. Untie yourself from your headset with remarkable voice quality.

Polycom CX100 Speakerphone gives you the ultimate hands-free calling experience from your Microsoft Office Communicator 2007-enabled computer. Polycom CX100 Speakerphone enables crystal-clear, natural conversations without echoes or feedback. Enjoy the freedom of not wearing your headset for hands-free calls, or plug into the built-in stereo headphone port for private conversations.

Polycom CX100 Speakerphone delivers remarkable wideband audio quality that enables seamless voice and video communications with no compromises. Two high-quality microphones provide excellent range for small group conversations.

Polycom CX100 Speakerphone connects and powers through an integrated USB cable for easy installation and use – no extra cables to carry or batteries to charge. Its small size and carrying case make it easy to take with you. Plus, the high-fidelity speaker doubles as a great portable solution for CD-quality music and presentation audio.

The integrated button controls allow you to pick up or hang up calls, adjust speaker volume up and down, and mute the CX100's microphones during a call without using your mouse. LED indicators on the CX100 display various call states like incoming call, call muted, active call, and voicemail waiting for user.

Don't settle for imitators – only Polycom CX100 Speakerphone delivers a hands-free computer calling experience featuring:

- Remarkable wideband voice quality
- Two high-quality microphones with 360 degree pickup
- Integration with echo cancellation and other audio capabilities on Microsoft Office Communicator 2007 and the Microsoft Office Communication Server 2007
- Integrated button controls for a seamless user experience

Integrated with Microsoft Office Communicator 2007, Polycom CX100 Speakerphone is compatible with Windows XP®.

Make Great Things Happen with Polycom CX100 Speakerphone

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organisation's survival. As the market leader in voice, video, data and web solutions, our award-winning conference technology makes it easy for people to interact and maximise productivity — over any network, in just about any environment, anywhere around the globe. That's why more organisations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you too, can achieve great things with the Polycom CX100 Speakerphone.

* Audio performance may vary based on PC specifications.

- ▶ Integration with Microsoft Office Communicator 2007 – Integrated functionality for handsfree computer calling is optimised to deliver a seamless unified communication experience.
- ▶ Hands-Free Freedom – Untie yourself from your headset for clear one-on-one calls or group conversations.
- ▶ High-Fidelity Speaker – High-quality audio for the best possible voice and video calls.
- ▶ Two High-Quality Stereo Microphones – Make sure others on your call will hear every word clearly, whether you are in an office or a conference room.
- ▶ Easy to Use – Convenient buttons and integrated functionality with Microsoft Office Communicator 2007 enable you to pick up and hang up calls, control volume, and mute the microphones on the active call. Plug-n-Play capability of USB ensures no driver downloads are required.
- ▶ Ultimate Portability – The integrated USB cable stores inside the unit so that your Microsoft unified communications experience is portable and convenient.
