Integrated speakers	Yes	Yes	Yes

### Touch-enabled e-LED LCD display

A durable, high quality display that uses smooth, anti-glare glass to create an optimal touch experience. 4K ultra HD resolution is available with each model.

### Multi-tool, multi-touch

Work naturally by using touch gestures to write and manipulate content or simply pick up a pen or eraser. Two people can interact with content simultaneously.

### Object awareness

Functionality automatically adjusts depending on the tool or object being used, whether it's a pen, finger, eraser or palm.

### SMART Meeting Pro® 4.0 software (included)

This productivity and collaboration software enables you to collaborate in the fourth dimension by working in the Unbound Workspace to create, share and interact with content.

### Presence Detection

The display automatically turns on when people are nearby and turns off when no movement is detected.

### Touch gestures

Zoom, flick and rotate objects easily – the 8000 series supports touch gestures like those used in the Microsoft Windows 7 operating system.

### Support for Multiple Displays

Users can simultaneously write as well as share content and applications on up to 16 connected displays.

### SMART ink™ 3.0

New with SMART Ink 3.0, the dynamic ink toolbar appears as soon as you pick up a pen. Easily select ink tools, navigate through application specific ink tools and discover enhanced text injection and editing tools.

### Pen iQ™

The next generation 8055" and 8065" also feature dual magnetic, one red and one black, designed for a customized multi-user experience. Pen color can also be changed through the integrated ink tool bar.
