

8x8 Meeting Rooms

Easily schedule, host and join meetings from huddle rooms and other dedicated collaboration spaces

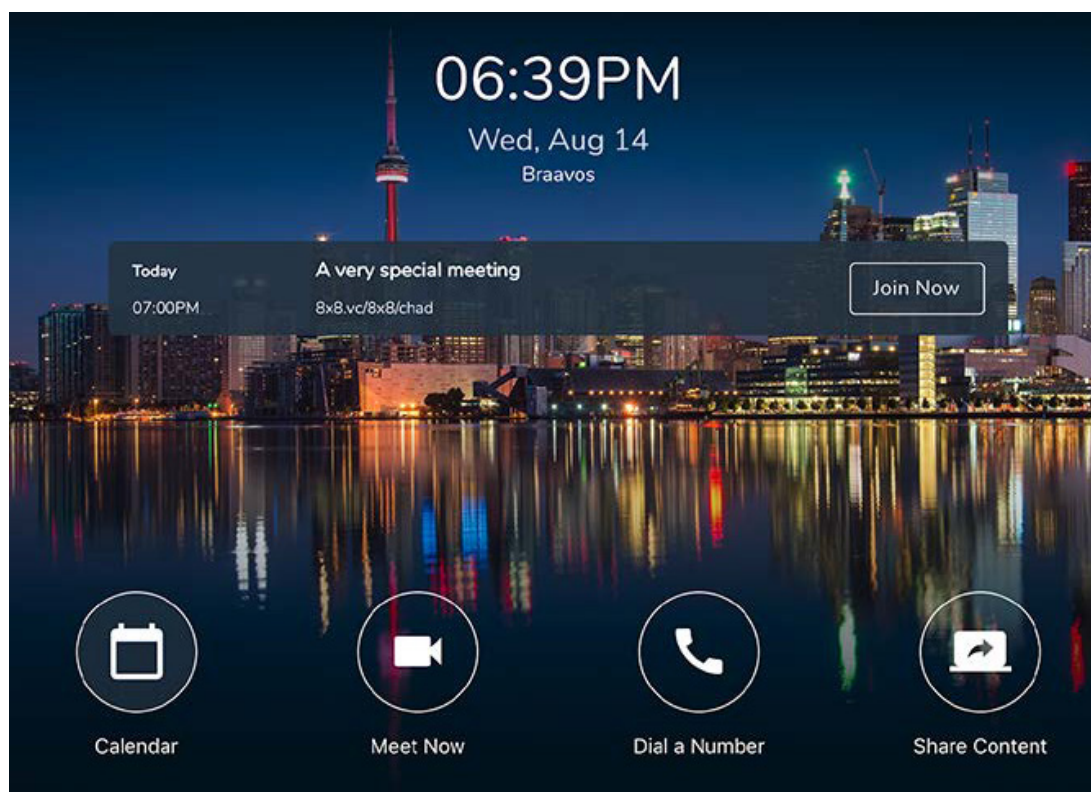

Introducing 8x8 meeting rooms

With its rich history of delivering reliable and easy-to-use communications solutions, **8x8 introduces 8x8 Meeting Rooms, elegantly simple Cloud software** that allows you to easily schedule, join and host video meetings from a dedicated space.

Meeting Rooms is a software add-on to the new 8x8 Meetings Experience. So if you are already using Meetings, adding Rooms to your account is easy. You get the same immersive, easy-to-use experience as with Meetings but allow meeting participants in one location to be in the same room rather than in disparate sites in the same building. This can make for **more lively meetings, reduce network bandwidth requirements and increase collaboration effectiveness** with others in similar rooms at different sites.

Key Benefits

- Eliminates frustrating set-up experiences... features an intuitive interface and smart pairing technology to connect devices
- Share any screen easily with wired and wireless options
- Integrates with Virtual Office and popular calendar systems including Google Calendar and Microsoft Outlook
- Supports a wide range of standard video conferencing hardware configurations
- Part of the 8x8 X Series platform

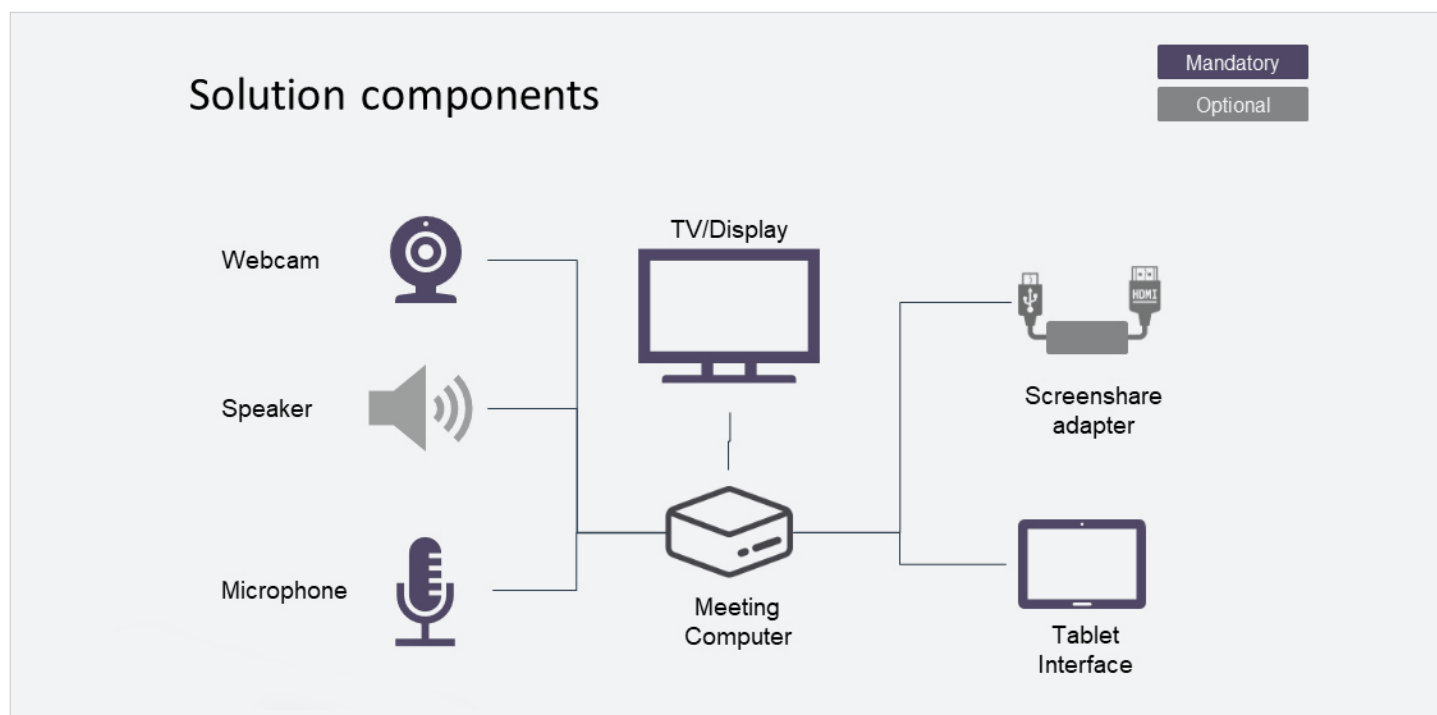

Meeting Rooms' front page

8x8 Meeting Rooms runs on standard video conferencing equipment

8x8 Meeting Rooms can be configured in many different ways depending on your room size and budget. It works with popular video conferencing equipment from a wide range of vendors including Logitech, Poly and Crestron.

The software runs on a mini-PC to connect audio and video devices such as TVs, cameras and microphones. We recommend also using a tablet like an iPad for added benefits including placing calls, giving and yielding screen control and more.

Meeting Rooms Solution View

Built for business

Integrate natively with your favorite enterprise apps including calendars, single sign-on and directory. Share your meetings with an unlimited number of viewers through live broadcasting.

One Cloud platform for all your communications needs

Meeting Rooms is the newest entrant in 8x8's X Series platform. Already use Virtual Office or Contact Centre or Meetings? See how easy it is to add Meeting Rooms. Try it out.
