

## HUDDLE BUDDY

Professionally installed & optimised “one-wire” solution

Based on renowned Biamp technology, VideoCentric’s Huddle Buddy is an optimised professional installation bundle designed to bring quality, reliability and simplicity to your Huddle Rooms and small meeting spaces.

### Designed & Optimised for each room

The right camera & audio components, chosen and installed for each particular space.

### Professional USB Camera

4K, wide-angle lens, PTZ

### Single/Dual Displays

Interactive or standard

### Exceptional Audio

In-built echo cancellation & amplifier  
Hi-fidelity speakers & beamforming mics  
Bluetooth Audio Bridging

### One USB, Clutter Free

Permanent wall, table or floor USB plate, all the fuss hidden behind it. Just plug in and go.

### For all your Collaboration apps

Skype, Lifesize, BlueJeans, Zoom, WebEx, Pexip, Videxio, Microsoft Teams, GoToMeeting & more.

**Single USB socket.** Users bring their own devices and business applications and simply plug in a single USB. All the clutter and cables are hidden away during installation for a clean look and “no fiddle” set up.

**Optimised for each room.** We select the right camera and audio solutions for your specific meeting room to create a tailored Huddle Buddy, fully set up & optimised by our expert engineers. Don’t “make do” with a less than optimal solution.

**Full range of feature options.** Interactive touch screens, up to 4K video, wide-angle FOV, dual displays...& more. Ensure users have access to professional features & technologies to use with their collaborative tools of choice.
